

Innovation

Features a unique beveled needle cartridge that eliminates suction & clogging for ultra-smooth infusion of skincare topicals.

Agility

Adjustable depth 0.2-2.5, featuring a unique stainless steel "infinite" dial for precise treatments.

Comfort

Designed with a wide layer comfort grip and balanced gripping axis reduces gripping stress and alleviates motion fatigue.

Power

Adjustable speed dial with 4 settings for customizable patient treatments (11,000 RPM)

The Rejuvopen was developed by Refine USA, LLC (Jacksonville Beach, Florida). Refine USA has been a market leader in the manufacturing and distribution of premier aesthetic technologies for over 5 years. We pride ourselves in designing and developing medical devices that meet the clinical and financial needs of aesthetic health care providers. The VeinGogh Ohmic Thermolysis System is just one example of our "market changing" technologies.
